

PROJECT SHARE REPORT

SAVE**ONE**LIFE

What is Project SHARE?

A patient receives an infusion of factor.

PROVIDING ACCESS TO MEDICINE

Project SHARE (Supplying Hemophilia Aid and Relief) is a humanitarian program of Save One Life. SHARE donates factor, a crucial blood clotting medicine, to patients with bleeding disorders in developing countries, and to the hospitals and nonprofit organizations that support them.

History

Founded by Laureen A. Kelley in 2002
as a program of LA Kelley Communications,
donations have:

- prevented crippling, pain and death
- allowed students to return to school
- attracted rural patients to urban clinics for treatment and education
- supported life-saving surgeries and physical therapy
- empowered patients and families to create hemophilia societies where none existed

**SINCE 2002, SHARE HAS DONATED
MORE THAN 167 MILLION UNITS
AND 9,745 MG OF FACTOR TO
THOUSANDS OF PATIENTS IN
77 DEVELOPING COUNTRIES.**

Project Description

Project SHARE ensures that tens of millions of dollars worth of factor, which would otherwise be destroyed, reaches impoverished people with bleeding disorders. This factor comes mainly from US patients who switch products, hemophilia treatment centers (HTCs), and specialty pharmacies with excess inventory.

Access to factor varies greatly in developing countries. However, over 75% of patients around the world still have little to no access to medication. Project SHARE was created to help patients in emergency situations by providing factor to save lives and limbs threatened by a bleeding episode.

Our Goals and Objectives

Despite Project SHARE's continued efforts, our inventory of factor often varies. Project SHARE tries to fulfill each request we receive by working with partners in the pharmaceutical industry, specialty pharmacies and other nonprofits.

A boy in Yemen receiving a shipment from Project SHARE

Summary of Donations

CATEGORY OF MEDICINE	TOTAL IU SHIPPED
FVIII	4,712,489
FIX	506,000
VWD	357,500
INHIBITOR	768,500/218mg
TOTAL	7,354,807/218mg

Where We Helped

IN 2022, PROJECT SHARE SHIPPED FACTOR TO
28 DEVELOPING COUNTRIES

Albania	Armenia	Bahamas
Bangladesh	Cambodia	Cameroon
Cote D'Ivoire	Dominican Republic	Ecuador
Egypt	Ethiopia	Fiji
Gambia	Haiti	Honduras
Indonesia	Jamaica	Kenya
Morocco	Nepal	Nigeria
Pakistan	Philippines	Romania
St. Vincent and The Grenadines	United Arab Emerites	Yemen Zimbabwe

Supporting our Program Partners

CHANGING CUSTOMS REGULATIONS

Changes to customs regulations impact shipment requirements, which have made getting factor to patients more difficult.

Save One Life stays up-to-date on important customs regulations worldwide.

Working together with our partners, the Project SHARE team solves shipping challenges as quickly as possible.

Our Impact

Maria Isabella, Honduras

**"I AM VERY THANKFUL TO
YOU AND EVERYTHING YOU
DO FOR US, WITHOUT YOUR
SUPPORT MY LIFE WOULD
NOT BE THE SAME."**

Maria Isabella was diagnosed with von Willebrand disease when she was 5 years old.

"Factor makes my body feel alive, with energy and life to continue. Before this Project SHARE donation, I had been without factor for two years. As long as I can remember, I have loved to draw. When I was little and had to stay in the hospital, I asked for a notebook and color pencils to distract myself. I am pursuing two college degrees at the same time. It is exhausting, but I am proud of myself that I know I can accomplish this."

Our program partner provided Maria Isabella the donated factor sent by Project SHARE and she is able to thrive in college.

Stories from The Philippines

ENERES • TAOCHAN

Erenes has been through a lot in his young life. He has been in and out of the hospital for different bleeds, including four months for a stomach bleed and lung embolism.

Erenes has hemophilia A with inhibitors. Project SHARE has been vital for his continuous treatment due to the clots in his stomach.

ERENES IS IN TOP OF HIS CLASS AND IS AN ACTIVE YOUTH VOLUNTEER OF HEMOPHILIA ADVOCATES PHILIPPINES.

Taochan was hospitalized in May 2022 after a complication from his Covid vaccine.

Thanks to Project SHARE and the access to treatment, Taochan now lives a normal life. He does well in school and his teachers praise his positive outlook on life.
